August 17th, 2015

Dear Hong XU,

I am very pleased to confirm that we will be able to welcome you in LEESU from August 31st to September 4th 2015. This week will be dedicated to training on cyanobacteria modelling with the modelling tools developed by LEESU for the Yuqiao reservoir, in the framework of the scientific cooperation project between LEESU, École des Ponts ParisTech in France and the Haihe River Water Conservancy Commission (HWCC) in China.

I am looking forward to meet you at the end of August and remain at your disposal for further information.

Sincerely yours,

Brigitte Vinçon-Leite
Researcher at LEESU
ÉCOLE DES PONTS PARIS TECH
